Subject: Webinar: Building a Strong Foundation for Security and Governance with Digital Document Processes - reg.

Madam/Sir,

Adobe featuring Forrester Research is organising a webinar on the subject cited above. Increasingly complex legal environments, strong regulatory support for electronic approvals (such as IRAP in Australia, Singpass in Singapore and Aadhaar in India), as well as the growing need to support customers' digital identity management are pushing organizations to adopt digital documents and e-signatures en masse.

2. Despite that, a recent commissioned study conducted by Forrester Consulting on behalf of Adobe on businesses in Asia Pacific, shows that only 25% of an organization's legal document processes are digitized today – negatively impacting business agility and security.

3. This webinar is specially designed for IT and LOB leads and professionals - involved or interested in improving digital workflows to increase trust and reduce the compliance burdens of companies, to help support governance and data security.

The details are as under: -

Date: 11th August 2021, Wednesday

Time: India 10.30am | Sydney 3.00pm | Singapore 1.00pm

Duration: 45 minutes

Speakers:

Sam Higgins
Principal Analyst
Forrester

- ✓ Sam's professional engagements in the private sector, as well as state and federal government, assist him in addressing the unique technology challenges found in diverse industries such as financial services, healthcare, education, transportation, and mining.
- ✓ Sam's research focuses on business and IT alignment, CMO and CIO collaboration, and the employee experience for IT teams and technology leaders as well as local and regional adoption of emerging technology

and digital transformation. Sam specializes in delivery of advisory to clients in Australia and near-shore English-speaking markets across Asia Pacific.

Marianne Low

Head of Legal, SEA
Adobe

- ✓ Marianne advises the Adobe business on all issues that impact its transactions around the region, including data protection laws & cross-border data flows. She also has over 15 years of experience in providing advice on technology licensing matters across many industries like telecommunications, financial services and the public sector.

Chandra Sinnathamby

Head of Document Cloud Solutions
Adobe, Asia Pacific

- ✓ Chandra Sinnathamby is Adobe's APAC Head of Document Cloud Solutions. In his role, Chandra is ultimately responsible for helping organisations embrace cloud technologies for their digital transformation, with a focus on using 100% digital workflows and eSignatures to accelerate business outcomes. Chandra leads the business and marketing strategy development and execution for Adobe's Document Cloud in the Asia-Pacific Region.
- ✓ Prior to joining Adobe, Chandra held several management positions at Microsoft across Asia-Pacific working on the Windows, Office 365, Windows Server, OEM and Xbox businesses. Chandra has more than 20 years of experience in the IT and mobile industry, guiding organisations through their technological transformation.

Officers of EPFO are encouraged to register and take advantage of this webinar at no cost. The webinar will share how the Adobe Legal department adopted a risk-based approach to implementing digital document processes and e-signatures from simple non-disclosure agreement to complex legal agreements. Hear how the team overcame common barriers to entry to realize tangible benefits of streamlining legal workflows, accelerating productivity and ensuring secure processes and compliance against a backdrop of emerging regulations across the region. Interested officers may register for this webinar at the URL mentioned above.
