

List of Changes Made In Version 5.0

1. Provision to generate Annexure II TEXT and PDF file is now available in the E-Return tool version 5.0 for upload on the ECR portal. The same screen can also be used to generate supplementary Annexure II.
2. Provision to generate supplementary ECR file is also available.
3. In the login screen, a new provision to retrieve the password for “admin” role is provided in case the user forgets the password.
4. In the System Administration module a new function “Answer security question for password recovery” is added. Using this function, the user can answer the security question that is required in case the user forgets the password.
5. Function for Challan generation, 3A/6A, Broken period 3A and Supplementary 3A has been blocked from 2012-2013 onwards.
6. Employees above 50 years and drawing reduced pension are now handled in the tool through the Employee Master function.

NOTE: For more details regarding the functions, visit the “HELP” link available on the respective screens in the E-Return tool ver. 5.0.
